

Title:

Colloidal quantum dots for electronics and optoelectronics

Prof. Maria Antonietta Loi
University of Groningen

2014/7/9 (Wednesday) PM 14:00

國立成功大學 光電科學與工程學系
綜合大樓 48424 室

About the speaker:

Education:

- 1997: Degree in Physics, at the Università di Cagliari, Cagliari, Italy, with the maximum mark and cum laude. Title of the thesis: Proprietà elettroniche di copolimeri coniugati a gap modulabile”, under the supervision of Dr. Giovanni Bongiovanni e Dr. Andrea Mura.
- 1997-2000: Ph.D. in Physics, at the Università di Cagliari, Cagliari, Italy. Title of the thesis: Photoexcitations and Interchain Interactions in Conjugated Oligomers and Polymers. Under the supervision: Dr. G. Bongiovanni and Dr. A. Mura.

Awards and Honors:

- 2012 (3 months) Visiting Professor University of Cagliari, Italy.
- 2011 Minerva Prize, for the best physics publication written by a woman in The Netherlands.
- 2003 Prize young researcher “III millennium” Lions club Bologna, San Lazzaro, Italy.
- 2000 Best experiments at the Fourth International Topical Conference on Optical Probes of Conjugated Polymers and Photonic Crystals, February 2000 Salt Lake City, Utah, USA
